

20th June 2016

LFB BIOMANUFACTURING is Bronze sponsor of “4th Antibody Industrial Symposium 2016”.

The “4th Antibody Industrial Symposium 2016” take place on 4th and 5th July 2016, in Montpellier (Southern France). The main theme of this 4th symposium is : «Current and Next Generation Antibody Formats”. Every year, AIS gathers scientific experts, manufacturers, physicists and economic leaders, to discuss therapeutic antibodies issues, and this year with a focus on alternative formats for “nanobodies” and the means to develop and manufacture these new types of antibodies.

LFB BIOMANUFACTURING is present at this symposium as Bronze sponsor, and will present there its industrial capacities for the manufacturing of monoclonal antibodies.
